Dear Parents/ Guardians,

It is a requirement of the State of Ohio that incoming 12th graders receive the meningitis vaccination. If your child has received this vaccination after turning 16 years old, then they are considered compliant.

Once your child receives this vaccination, please send documentation to the school office. Your child can also bring the documentation with them upon the start of the 2018-19 school year.

If you have any questions, feel free to contact me at 740-342-3528 or email me at molly.dupler@nlpanthers.org.

Thank you,

Nurse Molly
