

Keyword Vocabulary

from the Full 5th Grade OAT
May 2007

accurate	amber	anemometer
animal	animal characteristics	barometer
battery	birth	boiling
butterfly metamorphosis	canyon	changing states of water
characteristics of organisms	chemical changes	chemical composition
circuit	clouds	conclusion
conductivity	conductor	consumer
contact	cycles	day
decomposers	deposition	desert
design	design problem	Earth
Earth's rotation	Earth's surface	ecosystem
electricity	erosion	experiment
experiment design	fact	fish
food supply	force	forecast
friction	geologic processes	gravity
habitat	igneous	inference
investigation	investigation model	land slide
layers	life cycles	light absorption
light energy	light reflection	light refraction
maps	mass	mass wasting
migration	minerals	motion
night	night sky	observation
ocean	opinion	orbit
oxygen	patterns	photosynthesis
physical changes	physical properties	plants
points of light	pond ecosystem	producer
properties of light	properties of matter	properties of rocks
pull	rain gauge	records
rocks	sedimentary	seeds
soil nutrients	solar system	solution
sound	sound energy	sound generation
sound transfer	sound transmission	sound waves
star distance	stars	statement
states of water	steam	sun
survival	temperature	test
thermal energy	thermometer	tools
transfer of energy	vibrations	weather
weathering	weight
