

THE PANTHER POST

“Sponsored by The New Lexington 21st Century After School Programs.”

AFTERSCHOOL PROGRAMMING 21st CENTURY

21st Century Afterschool Program has just fired up for the new school year. Registration forms are in each school office. Make sure your child doesn't miss out on the programming and homework help!

Get into a school office and get your students enrolled.

CFPC Community Foundation of Perry County Awards Grant – PROJECT “SMILES”

Kelly Morman of CFPC interviewed NLCS Superintendent, Casey Coffey. A \$1,000 grant was awarded to New Lexington City Schools for its Dental Readiness project to support dental care and education around sustainable dental habits for students in the New Lexington school district.

NLCS believes that Good Dental Health is important not just for good overall health, but also for self-esteem and future employment success. The Foundation is financially supporting a new relationship between NLCS and the Ohio Dental Outreach, a mobile dental clinic from The OSU College of Dentistry. The mobile unit will visit NLCS this year to perform dental screenings.

Superintendent

Middle School DANCE, DANCE, DANCE

The middle school hosts its first dance of the year.

Students enjoy dancing to their favorite DJ, Curt Nichols!

Middle School Volleyball

NLMS volleyball players Jaida Carroll, Avery Jones, Bailey Agriesti, and Chloe Stickdorn are ready to receive the volley.

NLMS volleyball players break for a few minutes to plan their strategy.

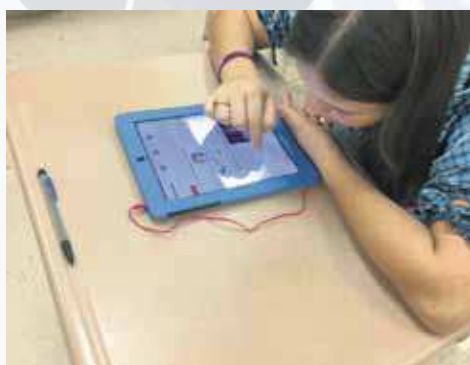

THANK YOU!

Principals and staff served pulled pork sandwiches to hungry football fans before the homecoming football game against West Muskingum. Thank you parents for supporting the Middle School. The pulled pork sandwiches were delicious! We raised \$1000! Fantastic!

Middle School Science

Newton's second law of motion states that a force, acting on an object, will change its velocity by changing either its speed or its direction or both. If your basketball goes rolling into the street and is hit by a bike, either the ball will change direction or its speed or both.

Eighth grader, Faith Robertson reads about forces and motion on the iPad.

Students work through Force and Motion exercises to solidify their understanding of the concepts. These 8th grade students are in Cortney Fulk's 8th grade science classes at NL.

Paul Stratton's Classes Study Aesop's Fables

What's in a fable?

Kaleigh Walker and Katie Gallagher working on an Aesop's fables project for seventh grade social studies.

Exploring Ancient Civilizations

Olivia McGraw and Abby West explore Ancient Civilizations. Today they are studying Ancient Greece in Paul Stratton's class at NLMS. They will share findings on posters that will be displayed in the school.

NLHS FAB LAB PRODUCTIONS

In collaboration with Hopewell Health Centers, students learn how to create banners in Barry Harvey's InfoTech class. Trunk or Treat is Thursday, Oct. 13!

NLE Community Night

New Lexington Elementary School recently held their fall community night. Students, parents, and staff build relationships and model literacy building activities to encourage academic excellence with our students.

Principal Greg Grant loves to read books to students. September 19th was "Talk Like a Pirate" Day. So we had a theme for this year's book fair built around pirates. With great pirate books by David Shannon, Mr. Grant couldn't resist reading a few to the students attending the event. Mr. Grant has a great voice that captures the attention of every child in the audience. Everybody listens when he reads!

SPIRIT WEEK FUN

The Hall of Fame Game warrants another rock painting. How many coats of paint are on this rock at the High School?

MIDDLE SCHOOL CROSS COUNTRY

Middle School runners Emma Abrams and Grace Baker warm up for the next run!

Spirit Week Isn't Just for NLHS — JCE

Ciara Nelson from Sara Cannon's first grade class at JCE is all decked out for Crazy Sock and Hair Day! It was Spirit Week at JCE! Go panthers!!!

Ciara is a true Panther! Full of school spirit!

We Must Recycle!

Katrina Carpenter presenting her Reduce, Reuse, Recycle program in third grade at JCE.

Katrina Carpenter instructs the class on the importance of recycling. Imagine all our trash in landfills. We can contribute to the better of the world by reusing "TRASH" to make things we use on a daily basis! Pictured with Katrina are Nick Metzger (far left), Makayla Stai, Bo Baker

QR CODE READER?

QR Code is machine-readable code consisting of an array of black and white squares, typically used for storing URLs or other information. When the code is scanned by the camera or smartphone, information can be read.

Will Stenson is using a QR code reader app to discover more about economic systems in Mrs. Hutchison's Intro to Business class.

JCE BOOK FAIR SUCCESS!

Students browse the book fair selections and make their selections. Proceeds from the book fair come to us in the form of product. We enjoy a selection of books from Scholastic for our libraries.

NLE Astronaut News!

The students in Mrs. Cook's and Ms. Batz's class culminate a space unit by sharing findings in response to research students conducted on a given space topic. Students then enjoyed ASTRONAUT ice cream.

MUSICAL SIGHT WORDS IS THE NAME OF THE GAME

IF YOU ARE LEARNING TO READ..... Miss Cannon's first grade class at Junction City Elementary played Musical Sight Words. Learning these sight words is an integral part of learning to read. Once students process these basic vocabulary words in everyday reading, they launch from basic readers, to picture books, and then to chapter books-! Let's have fun while we learn these words!

SUMDOG COMPETITION

Mrs. Shippett's Second Grade Class was OVERALL winner in Sumdog's Perry-Hocking Math Contest, held in September. Sumdog is a website that provides math practice through online math games. Students compete with friends, classmates, or students around the world. Games are individualized per ability level. Students compete with like opponents. During the competition week, Mrs. Shippett's students answered 4488 questions correctly! The top competing students were Cohen Talbot 938, Malikai Watkins 368, and Kira Sidwell with 363 accurate questions answered.

Kira Sidwell, Cohen Talbot, Malikai Watkins
